GATEWAYS TO THE OTHER WORLD [DVD]

This DVD provides you with the answers to the most profound question mankind has been asking. Is there life after death?

We discover an existing technique which allows one to travel to 'other realities' that are present in our universe. Through the science of quantum physics, Gardiner shows that ancient man was far more advanced than we previously believed. The author undergoes his own experiments to prove this point.

Is there a universal frequency so perfect that it allows the mind to travel into other realms?

Did our ancestors know of this special harmony?

How does all this now relate to the holographic universe and the concept of quantum entanglement?

Does the Great Pyramid hold a real secret to the quantum realm?

Are there ancient methods of healing here that would benefit mankind?

In an all-encompassing work, the author uses the science of today in conjunction with the most ancient teachings bringing them into the current day reality. We see the wonders of the ancients in their incredible buildings, built for a unique method of travel. We spot clues to the very real Atlantis and we come to our own end and discover a new beginning. Will anybody be able to say they no longer believe in an afterlife? Will anybody say that there it no more to life than what meets the physical eye?

Language: English
